Asher's Asphalt and Sealcoating Company are simply the best. They just completed a 12000 sq ft driveway job for me. From the measure and estimate to the completion of the project every interaction was professional. Their customer service is a rare find nowadays. I really appreciated their attention to detail and focus on making sure that the job was done right.

We had our driveway sealed by Asher's Asphalt and Sealcoating Company and are VERY satisfied with the job. The crew was professional and fast. I would recommend them for your asphalt sealing needs. We have had many compliments from neighbors on our driveway.

After a long home build dealing with contractors and all of their various excuses and delays working with Asher's Asphalt and Sealcoating Company was incredibly refreshing. They came right out to do an estimate and followed through by showing up when they were scheduled. I needed them to pave the driveway and after recent flooding, we realized we could use a bigger culvert. The grading, driveway, and culvert all came out great. It was a pleasure working with them.

Awesome company to work with. I have had Asher's Asphalt and Sealcoating Company come out to remove and repaved a couple of driveways and lay recycled asphalt on an easement road. Also, had the company create a drain ditch to help alleviate a water retention issue. They do great work for a reasonable price. I highly recommend and will call them for future needs.

Affordable Asphalt did a much better job of applying the coating than I could have as a DIY project. They were on time, communicated well with us regarding prep needed, time of arrival, and very quick in doing the work. The team worked fast and didn't miss a beat. You could tell they had done this many times and were very experienced.

Asher's was hired to seal coat the surface streets of our neighborhood. The job was done over the four day period that happened to be the heat wave we just experienced. Even though the temperature was over 100 degrees every day, once hitting 110 degrees, the crew showed up on time and ready to work. The crew was very well trained and did their jobs quickly and professionally. Unexpectedly, they put down two coats of the sealant which will lead to it lasting longer. The owner, Robert Asher, was very receptive to questions I had concerning the process. He answered every question I had while the job was being done. I would HIGHLY recommend Asher's Asphalt and Sealcoating Company to anyone who needs their surface streets resealed. Whether they be a business needing a parking lot done, or a community needing their streets sealed.

I called Asher's Asphalt and had my estimate within the week. The price was fair and explained to me by the office staff. When the crew showed up to do my project, the work was completed efficiently and in a timely manner. At completion I was glad to pay the foreman who introduced himself as the owner. I was pleasantly surprised to see that he took such pride in his company to work alongside his employees. I have recommended this company to many of my friends.

Had our driveway crack filled & seal coated. Communication & scheduling was good. Crew that came out were on time, professional, friendly, hardworking, knowledgeable, & respectful of our property. Happy with the job they did for us. Would recommend them to others, and would hire them again.

I wanted to say thank you for taking care of our asphalt needs. I was impressed by how well the crew worked together and how careful everyone was. We have used Asher's Asphalt in the past and will continue to use them for our asphalt needs. I would highly recommend them!
